

CHESTNUT LODGE

Conveniently located in Croydon, Chestnut Lodge offers easy access to the vibrant town centre, which is rich in culture and home to a wide selection of shops, diverse restaurants offering a variety of cuisines, and numerous places of worship. This area is also known for its local landmarks, including the historic Croydon clocktower, the museum and the beautiful Wandle Park – all contributing to the community's unique character and charm. Excellent 24-hour transport links make travel simple, with the nearest train station just a 12-minute walk away, providing direct connections to both Central and East London. For the convenience of friends and family, visitor parking is also available on-site.

This specialist care home with nursing provides a safe, comfortable environment for up to 42 male service users. It caters to adult males with physical health conditions, mental health needs, and neurological or neurocognitive disorders. Some service users may present with complex needs, a forensic history, and may be subject to Ministry of Justice restrictions.

Our care is rooted in a person-centred approach, supporting individuals with complex and challenging behaviours, who may require nursing care. We offer tailored support for those who may struggle with information processing, daily living tasks, or independent community living – always within the least restrictive environment possible.

The service is distributed into three units:

- Aspen** Ground floor – 12 beds
- Redwood** First floor – 15 beds
- Maple** Second floor – 15 beds

Chestnut Lodge is a purpose-built facility offering modern, accessible amenities. Each floor includes a communal kitchenette, lounges, dining room and wet room with disabled access. All bedrooms are bright, spacious, with en-suite facilities. Service users also enjoy easy access to a communal garden, offering a calm and relaxing space for recreation. The home has a state-of-the-art fish tank and shark tank, for that extra added sensory enjoyment.

We provide 24-hour nursing support, offering a wide range of healthcare services tailored to meet individual needs. Our experienced team is trained to deliver high quality clinical care including but not limited to; PEG care, Catheter care, Colostomy management, Pain management including support related to palliative care, tissue viability and wound care.

Referrals to Chestnut Lodge typically originate from general hospitals, mental health hospitals, neuro-rehabilitation centres, older adult mental health services, or community care providers. We are well-equipped to support individuals whose previous placements may have broken down due to complex or challenging behaviours.

Redwood Unit – First Floor

15 Service Users | Older aged gentleman (65+) with a Neurological Condition and/or Mental Health needs who will typically be stepping down from a Psychiatric Hospital Placement or transferring from a community placement which is no longer suitable due to the levels of challenging and/or inappropriate behaviours exhibited.

Redwood is a calm and supportive space for men living with a Neurological Condition and/or a mental health diagnosis.

Our service users may be living with conditions such as Dementia, Huntington's disease, Korsakoff's syndrome, Alzheimer's, Schizophrenia, or schizoaffective disorder and other mental health diagnosis.

We welcome those service users who are subject to Ministry of Justice or MAPPA conditions, offering expert care that balances safety with respect and personal choice.

Aspen Unit – Ground Floor

12 Service Users | Working-Age gentlemen with a Neurological Condition and/or Mental Health needs who will typically be stepping down from a Psychiatric Hospital Placement.

Aspen provides a welcoming and structured environment for working-aged men living with mental health conditions, neurological disorders, or acquired brain injuries. Here, every day is built around encouragement, meaningful activity, and a sense of community, helping service users maintain independence and enjoy life with dignity.

Maple Unit – Second Floor

15 Service users | Older Gentlemen (65+) who's needs cannot be met by more traditional nursing homes due to the level and type of behaviours that they may exhibit.

Maple has been created to provide a homely, reassuring space for older gentlemen experiencing cognitive changes such as Dementia or Alzheimer's. Our team understands that these changes can affect behaviour, memory, and independence and we provide patient, respectful assistance with daily routines, personal care, and mealtimes.

We anticipate service users for Maple to be admitted from General Hospitals, care homes and from supported accommodation or their personal home due to an increase in their level of behaviours which can no longer be appropriately managed. Behaviours experienced on Maple will typically be that of shouting, use of inappropriate language, low level physical behaviour towards others and the need for more than one member of staff to support with personal care in order to maintain a safe environment.
