

SHEPHERD'S CORNER

Shepherds Corner is a well-established residential care home located in the London Borough of Croydon. We specialise in supporting male and female adults with mental health needs and/or learning disabilities, including those with mild to severe levels of need. Our service offers 24-hour accommodation and personalised support for up to 13 residents in a warm, homely setting where many individuals have chosen to stay with us long-term.

Our dedicated and consistent staff team is trained to provide tailored support. We take pride in creating a relaxed, family-style environment where residents feel safe, respected, and valued. Each resident receives a personalised care plan built around their individual needs, preferences, and daily routines—with regular reviews and risk assessments to ensure care remains responsive and effective.

We support both long-term residents and those seeking short-term respite care, always promoting independence, dignity, and community inclusion. Our care is rooted in a person-centred approach, supporting individuals with learning disabilities. We offer tailored support for those who may struggle with information processing, daily living tasks, or independent community living – always within the least restrictive environment possible. At Shepherds Corner, we go beyond basic care by offering enriching, person-centred experiences that enhance quality of life.
